### **Baxter Named Chief Technology Consultant of Sterlite**

Les Baxter, PE, president of Baxter Enterprises, has been named Chief Technology Consultant (CTC) of the data cables division of Sterlite Technologies Limited (STL).

STL is a major manufacturer of copper and fiber optic communications cables and power transmission conductors. STL's products, which are used in more than 60 countries on 6 continents, include Category 5e, 6, 6a, and 7 cables. Their Dadra factory (about 200 km north of Mumbai) is the largest in India.

Mr. Baxter's responsibilities as CTC include consulting on technical issues relating to the design and manufacture of copper data cables. He spends about 3 weeks per calendar quarter at Sterlite's data cable plant in Dadra.

Baxter Enterprises, based in Little Silver, NJ, provides consulting and engineering services for networks and network infrastructure, including structured cabling systems, LANS, and residential networks. More information on Baxter Enterprises is available at [www.baxter-enterprises.com](http://www.baxter-enterprises.com).
